## MONMOUTH FESTIVAL

## Monday 26th July

Main Stage

8pm - 9pm

### O'CASAN

Pop

Northamptonshire based three piece rock/pop band O'casan are causing a huge stir in the industry. Possessing masses of Beatles British charm they are undoubtedly going to be the UK's next favourite act. Having recently finished their massive debut album 'Ricochet' with Manic Street Preachers/Funeral For A Friend producer Romesh Dodangoda they are set to take the country by storm.

Main Stage

9.30pm - 10.30pm

### HEAVEN'S BASEMENT

Rock

In the past 12 months, Heaven's Basement have toured all over Europe with the likes of Buckcherry, Shinedown, Bon Jovi, Papa Roach, D.A.D & Theory Of A Deadman along with hundreds of headline shows covering the length and breadth of their native UK. The band are looking forward to appearing at the Monmouth festival after plans to play the 2009 festival fell through.

Heaven's Basement will be running through some of their future classic songs such as 'Reign On My Parade', 'Tear Your Heart Out' and some newer material which will hopefully be on the band's debut album. Heaven's Basement are no strangers to the Monmouth area after spending some time at Monnow Valley Studio recording with top U.S. producer Bob Marlette.
